ABCOM **PAYROLL**

Best-in-class payroll processing and labour compliance for your QSR operation.

STAY OUT OF THE NEWS.

Paying your employees their correct and legal payment entitlements according to their award, week in week out, is a challenging task and one that carries significant consequences if performed incorrectly.

Abcom Payroll represents the pinnacle of modern labour award and payment processing for QSR operations; producing the most accurate payroll calculations possible and giving you the confidence your staff are being paid precisely as stipulated by the agreement they are employed under.

Abcom Payroll helps safeguard you from potential litigation by delivering award-precise payments supported by thorough audit trails and comprehensive financial reporting. Have confidence your payroll solution will stand up to audits and scrutiny. Never take the risk of heavy fines from non-compliant payroll practices.

UNPRECEDENTED FLEXIBILITY.

Abcom Payroll includes full support for both salaried and wage earning employees; fixed, one off and percentage based deductions and allowances; superannuation/pension contribution calculation and payments; student educational loan deduction schemes; annual/sick/TOIL/long service leave accrual; variation on rates of pay for employee meetings as well as other special events.

Rate of pay and tax rate changes are all automatically factored into calculations with pay split between periods accurately accrued in your P&L. Shifts can be assigned to another store for invoicing later, manual back pay can be easily calculated, adjustments can be made to any payslip and that's just the start of it.

Abcom Payroll makes the complex simple.

CONNECT.

At the end of a pay period, Abcom Payroll gathers timeclock data from your store via the cloud. Imported data can be reviewed via an easy-to-use visual clocking review, where shift incomes are colour coded. This allows you to very quickly identify & verify penalty scenarios. Where Abcom BOS Scheduling is used at the store, scheduled shift times are also shown, instantly highlighting variations from the original roster.

Awards, agreements and industry standard tax rates are automatically maintained and updated by Abcom with final verification by the user. Labour figures are calculated and appropriate totals are automatically exported directly to the Abcom Accounting system. Not only does this save operator time – it automates these processes - virtually eliminating manual error.

With over 2 million payslips prepared every year, for decades; it's obvious that Abcom Payroll remains the most reliable payroll software solution available to the QSR industry.

Abcom is a global Quick Service Restaurant systems developer that for over three decades has delivered business management solutions to some of the world's largest and most well-known brands.

Our growth and success has been achieved through an unparalleled reputation for excellent products and industry leading support powered by a highly experienced team representing many decades of IT and real QSR business knowledge.
